Chattagram, Chittagong Division, Bangladesh

Career Objectives

Since I am a developer, my goal will be to focus on solving problems and creating high-quality software that will have a dynamic impact on projects for the company.

Skills

Frontend : HTML, CSS, Tailwind CSS, React, Firebase, RestAPI

Backend : JavaScript, Express.js, MongoDB

Tools : Git, Github, VS Code, Figma, Netlify, Vercel

Projects

Ctg-Market(Car Cleaning System)

[Client](#) | [Server](#) | [Live](#)

Overview: Ctg Market is a web app for managing, booking, and tracking car cleaning services.

Features :

- ❖ Implemented JWT-based private routes with user-specific dashboards.
- ❖ Developed a full service booking system with live status updates.
- ❖ Designed a responsive UI with theme toggling and dynamic page titles.

Tech Stack: Tailwind CSS, React, TanStack Query, Firebase, JWT, Node.js, Express.js, MongoDB

Donation(Donate Bangladesh)

[Client](#) | [Live](#)

Overview: Donation platform for BD flood relief with secure payment and user-friendly features.

Features :

- ❖ Built dynamic donation campaigns with confirmation modals
- ❖ Handled real-time donation input and feedback.
- ❖ Designed a responsive UI for social causes.

Tech Stack: Tailwind CSS, React, Daisyui, JavaScript etc.

E-Matrimony(Matrimony-System)

[Client](#) | [Server](#) | [Live](#)

Overview: E-Matrimony platform with secure JWT authentication, premium membership, and dynamic biodata filtering.

Features :

- ❖ Built a secure JWT-authenticated Matrimony platform with user/admin dashboards.
- ❖ Integrated Stripe payment system for premium biodata contact access.
- ❖ Developed dynamic biodata filtering, pagination, success story submission features.

Tech Stack: Tailwind CSS, React, TanStack Query, Firebase, JWT, Node.js, Express.js, MongoDB

Education

Bachelor of Science in Computer Science & Engineering

2020-2023

BGCTrust University Bangladesh

Achievements

Programming Hero Certificate.

Languages Proficiency

Bangla- Native | **English-** Comfortable
