Career Objectives

I firmly believe that a skilled developer must be curious, disciplined, collaborative, and an effective problem-solver. My objective is to develop user-centric solutions while continuously enhancing my skills.To create meaningful impact, I strive to address real-world challenges, contribute to open-source initiatives, and deliver clean, maintainable code across various sectors.

Skills

Frontend : HTML, CSS, Tailwind CSS, React, Firebase, RestAPI
Backend : JavaScript, Express.js, MongoDB
Tools : Git, Github, VS Code, Figma, Netlify, Vercel

Projects

Ctg-Market(Car Cleaning System)   Client | Server | Live

Ctg Market is a web app for managing, booking, and tracking car cleaning services.

Features :

- ❖ Implemented JWT-based private routes with user-specific dashboards.
